Hello, I'm Zachary Fetters.

About Me

I am a freelance graphic and web designer, programmer, game developer, and a General Computer Information Systems major at Eastern Kentucky University. I have over 6 years of freelance experience in design and programming.

Knowledge

I am fluent in `HTML`, `CSS`, and `JavaScript`. I am knowledgeable in `C#`, `Git`, `PHP`, `MySQL`, `Batch`, and `PowerScript`. I am learning or wanting to learn `R`, `Haskell`, `C`, `C++`, and `TensorFlow`.

I have an eye for minimal, functionalist design and I like my code like I like my design: *clean, simple, yet perfectly functional*.

Experience

EKU I.T. Geek – Eastern Kentucky University

November 2019 to Current.

Worked as an “I.T. Geek,” which involved helping ECU students and faculty with technical issues at the desk, as well as loaning various pieces of technology and systems for those who needed it. I was also a part of the Continuity & Improvement team.

Student I.T. Internship – Rockcastle Co. High School

August 2018 to May 2019.

Worked as an unpaid student intern, responsible for various troubleshooting and system setup/configuration projects around the school. Worked closely with the central I.T. office for the district.

Certifications

TestOut Client Pro

Earned May 2019

Certificate ID: UV9VR

TestOut PC Pro

Earned May 2016

Certificate ID: UV9VR

Microsoft Office Specialist 2016 for Excel, PowerPoint, and Word

Earned Nov 2017 through Jan 2018

Skills & Abilities

Web & Graphic Design – I have a keen eye for flashy yet minimal design.

Programming – I'm a fluent and experienced front-end designer, and I'm knowledgeable in back-end programming.

Languages – I can speak English natively and German conversationally.
